Work Experience

Swiirl Inc

SOFTWARE ENGINEER (TECHNICAL LEAD)

Remote, USA

Oct 2025 - Present

- Led end-to-end development of scalable SaaS web applications across frontend and backend systems.
- Designed AI-driven product features using OpenAI APIs to improve automation and user engagement.
- Architected scalable backend services supporting concurrent users and real-time interactions.
- Established CI/CD pipelines and coding standards to improve development efficiency.
- Collaborated with stakeholders to deliver production-ready features aligned with business goals.

Eqaim Technology and Services Pvt. Ltd.

FULL STACK SOFTWARE DEVELOPER

Hyderabad, India

Mar 2023 - Sep 2025

- Developed and optimized web applications, improving performance and database efficiency.
- Built AI-powered content moderation system for detecting unsafe media content.
- Developed LLM-based document Q&A system using prompt pipelines.
- Engineered resume automation platform for CV creation and job integrations.

Appsdelite Technology

MERN STACK DEVELOPER

Mohali, India

Jan 2022 - Feb 2023

- Built responsive frontend applications using React.js and modern UI practices.
- Developed scalable REST APIs and integrated frontend applications with backend services.
- Optimized database queries improving application performance and backend efficiency.

Projects

Smart E-Commerce Platform

AI-POWERED E-COMMERCE PLATFORM WITH INTELLIGENT NEGOTIATION AGENT

- Built an e-commerce platform with AI-based product search using natural language queries.
- Developed intelligent price negotiation agent for optimized deal suggestions.
- Implemented personalized recommendations using user behavior insights.
- Tech: React.js, Node.js, Express.js, MySQL, OpenAI API

Resume Optimizer SaaS

AI RESUME TAILORING SYSTEM

- Built AI-powered resume optimization platform using LLM agents and prompt engineering.
- Improved ATS resume matching using intelligent keyword optimization and prompt engineering workflows.
- Reduced manual resume effort by 70%.
- Tech: Node.js, OpenAI API, React.js, MongoDB

Interview Practice Platform

AI INTERVIEW SIMULATOR

- Developed AI agent generating interview questions from resumes and job descriptions.
- Simulated real interview scenarios with adaptive feedback.
- Tech: React.js, Node.js, OpenAI API

Social Networking App

REAL-TIME SOCIAL MEDIA PLATFORM

- Built scalable real-time social networking platform using WebSockets and Socket.io.
- Implemented real-time messaging, notifications, and dynamic user updates.
- Tech: React.js, Node.js, MongoDB, Socket.io

Education

Indira Gandhi National Open University (IGNOU)

Noida, India

BACHELOR OF COMPUTER APPLICATIONS

Jawahar Navodaya Vidyalaya (JNV)

Dadri, India

SENIOR SECONDARY

Achievements

- **Gold Medalist** – National Judo Championship
- **Silver Medalist** – SGFI Judo Championship
- **Silver Medalist** – Regional Wrestling Championship
- Founder of **Learn & Public**, a professional community focused on learning in public, project sharing, and developer growth.
